

Substance use care for women and parents

Version 3 | Reviewed September 16, 2026

A practical referral guide for advocates serving adults age 18 and older in Cuyahoga County, Ohio. Family and maternity programs are included for adult clients with dependents. Programs with a narrower age range are identified. An out-of-county treatment link is labeled when it matters.

Provider, government, and community webpages were reviewed for service descriptions, contact details, and published intake criteria. No provider was called, and bed availability, funding, and appointment capacity were not confirmed in real time.
